FIRE-PROOF BUILDINGS

Patented January 28, 1869; April 13, 1869; May 4, 1869; June 28, 1870,

BY

EDWIN MAY.

This invention is practical throughout, and all the materials are at hand in every community to do the work. The same workmen that have been employed in erecting combustible, can build fire-proof buildings for less than ten per cent. additional cost over the present insecure method, and in most cases not to exceed five per cent.

The following public buildings, among others, have adopted the improvements:

Public Library, Cincinnati Ohio; State Sentinel Building, Indianapolis Ind.; National Bank, Lafayette, Ind.; Sheriff's residence, Logansport, Ind.; County Prison, Lafayette, Ind.; County Buildings, Winamac, Ind.; County Court House, Chicago, Illinois; County Buildings, Warren, Ohio; Court House, Williamsport, Indiana; St. Louis Republican, St. Louis, Mo.; Lake Side Publishing Company, Chicago, Illinois; County Buildings, Covington, Ind.; Court House, Vincennes, Knox Co., Ind.; County Prison, Cold Water, Branch County, Mich.; Fletcher & Sharp's Bank Block, Indianapolis: Hospital for Insane Department for Women, Indianapolis.

Address, EDWIN MAY, Indianapolis, Ind.

OFFICE No. 5 AND 6 GLENN'S BLOCK.

PATENT JAIL

I have invented and patented "Improvements in the construction of prisons," which will successfully obviate all necessarily dangerous contact of the jailor with those in charge, and which, in sundry other respects, confers upon the jailor the absolute control over the actions of his prisoners.

In my arrangement the jailor need never come in contact with the prisoner. There is always a grating of iron between the keeper and the confined. They are under his control and at his command all the time, without the risk of direct communication, the danger of which is known to all who have had the charge of prisons.

Each cell is fastened, and, by a counter movement, opened separately from the other, and any one cell can be locked or unlocked from without the corridor. Rooms for female prisoners, insane persons and hospital patients are made perfectly safe, and together with the residence for sheriff, completely fire-proof.

The patents for "Improvements in the Construction of Prisons" was granted to EDWIN MAY, October 4, 1859; May 29, 1860; June 28, 1870, and December 27, 1870. Patent of 1859 extended October 4, 1874.

SAW AND FILE-PROOF PRISON GRATING.

PATENTED MAY 9, 1871.

The advantage of this grating is the perfect security offered over the old method of common iron window grates; however large the bars, they could be easily sawed off, and the larger the bars the more obstruction to light and ventilation. This grating can be used for prison doors and corridor partitions. For further particulars, address,

PREFACE.

TO OUR MANY PATRONS:

In presenting you our Sixth Annual Issue of the Indianapolis Directory, we feel that we have tried to do our work in such a manner that very little or no fault can be found with it. Our Directory is daily growing in favor with the business men of all branches of trade, our subscription list showing over three hundred more this year than any previous year of our publication. This is a flattering prospect for business men, as the business of a city depends to a great extent on a city directory, as it shows to the world, more fully than any other medium, the business that is transacted in the city, and by whom it is done.

The present volume contains 33,408 names, an increase of 3,264 over last year's directory, and on the basis of $3\frac{1}{2}$ persons to the name, makes the population of the city about 115,000 persons. This we think is a very low estimate, as we who canvass the city yearly, have a great deal better chance to see its growth than any other person not engaged in a similar occupation. This year's volume contains between 50 and 60 pages more than last year's work, hence the increase in names.

Our thanks are due to our many patrons for their liberal support, and we ask for a continuance of the same in our succeeding issues.

Respectfully,

THE PUBLISHERS.

PLANING MILL.

Builders' and Manufacturers' Association Planing Mill

Is the Largest and Most Complete Establishment of the kind in this or any other City.

Planing and Sawing.

The Planing and Sawing Department is of sufficient capacity to do all the work which may be brought to it.

Mouldings.

The Moulding Department is the largest, as well as the cheapest, in the West.

Scroll Work.

The Scroll Department is large and complete, and is controlled by talent and genius unequaled in the United States.

Turning.

The Turning Department comprises nine wood lathes and one shaping machine, and the celebrated Eden Rope Moulding Machine, and only needs to be seen to be appreciated.

Door and Window Frames.

The Door and Window Frame Department, which is large and complete in every particular, is headed by the best mechanic, as well as expert, in reading plans.

Doors.

The Door Department is superior to anything of the kind East or West, and is now making the finest doors in the city.

The Sash and Blind Department

Is of sufficient capacity to fill all orders at short notice. Sash and Transoms, glazed and unglazed; Hot-bed Sash, glazed and unglazed. Inside Blinds a specialty.

Store Fronts, Counters and Church Pews.

This Department is very large and complete, with a competent mechanic at its head, whose duty it is to see that all measures are taken correctly, and the work executed in the very best manner and in the latest style. In this Department we have one of the best carvers in the city.

Stair Building.

This Department is one of the largest in the country, and is controlled by Mr. WM. H. IRELAND, who is well known throughout the West, and is pronounced by Mr. Robert Riddell, the eminent stair builder of Philadelphia, to be the most complete in capacity, system and style, of any in the United States. In this Department we execute all kinds of plain or ornamental Stairways, and ship them to all parts of the country. Our stock of Stair Material is large and well selected.

Lumber.

We have an immense stock of all kinds of Building Material, comprising all kinds of Rough Lumber, Shingles, Lath, Fence Posts, Pickets, Gates and Dressed Lumber.

You will find experienced and accommodating clerks to wait on you promptly, and wagons to deliver goods in any part of the city.

The above establishment is headed by Mr. CHARLTON EDEN, President and Superintendent, who gives his entire time and attention to the business.

JAS. HASSON, Secretary.

ENTERPRISE.

This Boarding House,

(THE LARGEST IN THE CITY),

CONSISTING OF SEVENTY-EIGHT ROOMS,

*Is Situated on Massachusetts Avenue, between Delaware and
Alabama Streets.*

All persons wishing a quiet Boarding House, without the bustle of a
Hotel, and still the independence, will do well to give
the "ENTERPRISE" a call.

THE PRICES ARE VERY LIBERAL.

Room for \$5.00, Day Board for \$3.50

PER WEEK.

The Ladies who are sole proprietors, have an experience of **THREE YEARS**,
and know just what they can do for the money, and they ask
every person stopping with them not to expect
the same fare for 50 cents per day
that they would pay \$3
for at a Hotel.

Already the House has a Wide Reputation,

NOW ENTERTAINING ONE HUNDRED AND FORTY BOARDERS.

MRS. KING & MISS MILLER,

SOLE PROPRIETORS.

BROWN'S ROTARY SHUTTLE SEWING MACHINE.

A Few of the Excellent Points over and above other Machines.

**NOT FOR A DAY
BUT FOR ALL TIME**

- 1st. Is less complicated.
- 2d. Has less number of working parts.
- 3d. Makes less noise.
- 4th. Makes more stitches to each turn of the wheel.
- 5th. Is the only practical Rotary Shuttle.
- 6th. Has the only positive feed motion.
- 7th. Is the lightest running.
- 8th. Has the only instantaneous method of regulating the stitch.
- 9th. Has more space under the arm for the handling of goods.

10th. The only machine having the instantaneous method of raising and lowering the feed, whereby we are enabled to sew thick, soft, spongy or hard and unyielding goods of varying thicknesses, without changing the tensions.

11th. Has self setting needle—can be set in the dark as well as in the light. Designed for and used upon this machine only.

12th. Never breaks needles or thread by any accidental turning of the wheel backward.

13th. By the shuttle being carried upon the rotary bearing, it is prevented from skipping stitches by lost motion.

14th. Perfect tensions.

15th. A child of intelligence can learn to run it in thirty minutes.

16th. Will be less liable to get out of order, because of its great simplicity and perfect workmanship.

17th. Is warranted in every particular.

Price same as other first-class machines, but large reductions made for cash.

Call at our Office for further particulars.
